

Automated Pool Controller
(Aqualink, Pentair Intellitouch, etc.)

**Wiring When
Without Buttons Off**
2 Fire Features

* At right 2 conduit are shown, one to each fire feature.
It is possible to daisy chain the conduit and wire run.
This would make it possible to run one conduit to the
2 fire features and then link the fire features with conduit.

J-Box with 24v Transformers
For Each Fire Feature
(One Transformer Needed)
